All,

Please review the attached request for reissuance under the MA GP before our January 21, 2016 interagency coordination webinar. Comments will be due by January 28, 2016.

Note: I believe this project needs review by NOAA PRD for threatened and endangered species.

Also please note that this is not a new project - we previously authorized it under the old GP, and it is already under construction. With the old GP authorization expiring, MassDOT has requested we reauthorize the project under the current GP so the work may be completed.

Thank you,  
Dan
